

EXPLORING THE GRATITUDE ENCOUNTER

Immersive and interactive experiences
to activate gratitude for teams and
organizations

**GRATITUDE
EXPERIENCED
IS BETTER
THAN
GRATITUDE
EXPLAINED**

There's something unique that happens when people experience and share gratitude together.

Gratitude grows.
It deepens. It lingers.

Too many programs **explain** the benefits of gratitude. It's better to allow people to **experience the Power of Gratitude.**

Workers and workplaces around the world are experiencing a multitude of challenges.

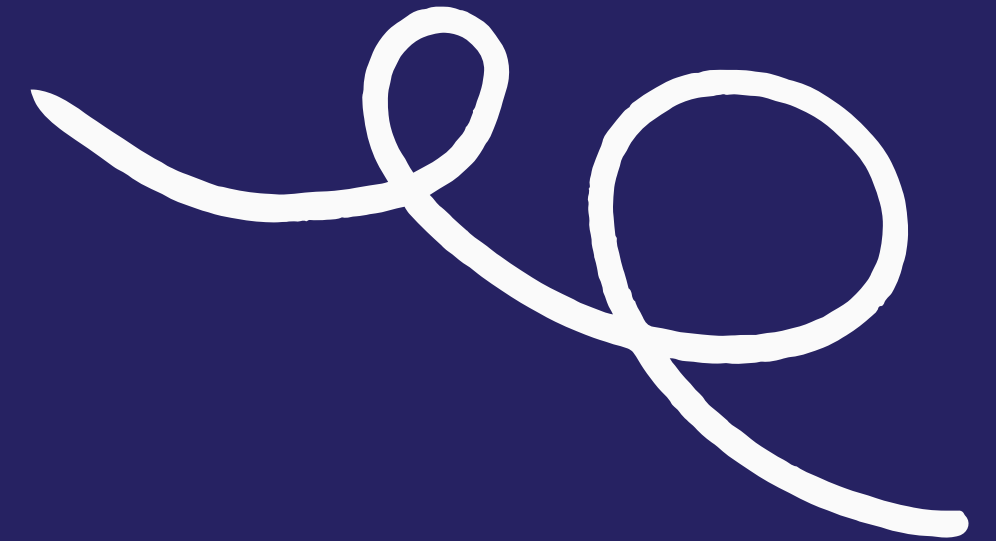

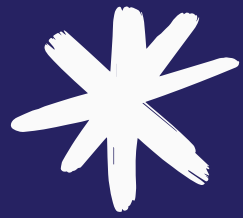

Fear and uncertainty abound.
People feel isolated and alone;
Disconnected and overwhelmed.

Leaders are looking for meaningful ways to **connect, inspire, and equip** their people with skills and experiences that **help them cope, even flourish**, during these challenging times.

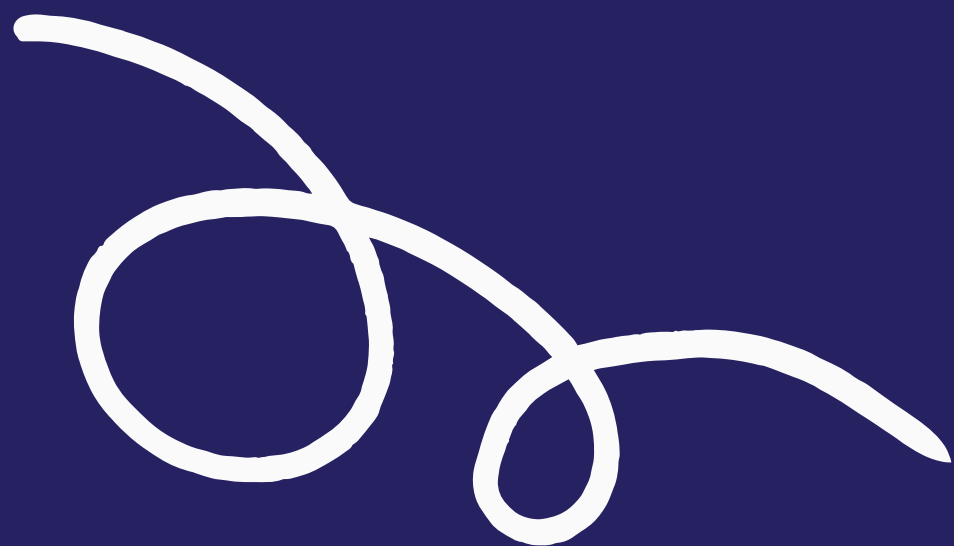

Gratitude is now an essential skill to successfully navigate the challenges of life and work.

**IMMERSING
PEOPLE INTO
GRATITUDE IS
BETTER THAN
INFORMING
THEM ABOUT
GRATITUDE**

WHAT CLIENTS SAY:

"After such an emotionally hard year, the Gratitude Encounter I experienced with my closest colleagues was a much-needed opportunity to acknowledge our emotions and remind us of our blessings. I left the encounter with a sense of purpose, fulfillment, and pure joy. It's hard to capture all the feelings I had after the meeting but what I do know is I'd love to experience it again and again." – Laura Elmquist, Aprendamos, NM, USA

"A huge THANK YOU from my wonderful team at BGO Residential Services. The gratitude encounter not only gave us an opportunity to share deeply with one another, but it also equipped us with a powerful tool to meet the challenges of day to day life! You can read about gratitude or you can EXPERIENCE it! We are so grateful to you for showing us how to experience it and live it! It's already made a positive difference for many of us. Thanks again."
